

## **CHOICE COIN TRIAL SERVICE TERMS**

February 26, 2023

- i. These Trial Service Terms apply to all Choice Coin users, holders, and voters.
- ii. Choice Coin does not promote or facilitate any investments or investment contracts of any kind for any reason.
- iii. Choice Coin is not an investment, nor should it be used as such. It is the common understanding of the Choice Coin network that Choice is a utility token for voting and not an investment in any entity or enterprise.
- iv. Choice does not represent an interest in any equity, application, or asset and is solely designed to be a utility token and fully decentralized.
- v. Any Choice Coin user or voter should use the asset without any expectation of profit or financial gain. The purpose for the Choice asset is intended to be solely for voting.
- vi. Choice Coin is fully decentralized and no one actor has the power to substantially influence the price of Choice relative the rest of the network.
- vii. The Choice Coin DAN assumes no liability for any losses which may be suffered by Choice Coin users.
- viii. All Choice Coin users use Choice at their own risk.
- ix. Choice Coin users use the Choice asset and Choice Coin technology at their own risk.
- x. Choice Coin users understand the intended method by which users earn Choice is through participation and their own efforts.
- xi. The Choice Coin DAN does not sell any equity interests or assets, including Choice.
- xii. All Choice Coin users acknowledge Choice is a highly volatile asset and assume the risks associated with owning such assets.
- xiii. All Choice Coin users agree to hold harmless the Choice Coin DAN and its developers for any losses suffered using the Choice asset.
- xiv. All Choice Coin users bear the entire risk of using Choice and Choice Coin for any purpose including its intended use as a governance token.
- xv. The utility for Choice Coin is to act as a utility token for DAOs and DANs on various blockchains.
- xvi. Any return offered for participation in Choice Coin is not offered by Fortior Blockchain.
- xvii. Any return advertised is a measurement only in Choice for the purpose of decentralization and is in no way a promise or guarantee of profit.
- xviii. Choice Coin has a vetted and verified use for voting.
- xix. Choice Coin is an open source software project and a key principle of this project is transparency and open information.
- xx. Anyone wishing to contribute to or participate in Choice Coin may do so through GitHub.
- xxi. Any Choice rewards offered for staking is done for the purpose of decentralizing the asset.
- xxii. Any Choice rewards offered are measured by a third-party and should not be construed to promise a profit.
- xxiii. Any Choice rewards are offered are measured in cryptocurrency and not in USDC and should not be relied upon for the purpose of making investment decisions.

- xxiv. For any betting application, such as Bitcoin Bets, the service is offered on a trial basis only.
- xxv. Users of Choice Coin betting software agree that the software is only a trial and that they may lose all assets committed to the application.
- xxvi. Users agree to hold harmless Choice Coin developers and absolve them of any liability for loss of goBTC or other assets used on the Bitcoin Bets platform.
- xxvii. Users agree that they use the software at their own risk and that there is a relatively high probability of loss in using the software over time.
